Blue Sky Communities broke ground on an affordable senior housing project, Bear Creek Commons, scheduled for completion in St. Petersburg in Fall 2024.

The \$25 million project includes 85 rental units, with amenities and support services managed by Carteret Management.

The city's investment totals \$6.6 million, with additional funds from the [Florida Housing Finance Corporation](#), [Pinellas County HFA](#), [Raymond James Affordable Housing Investments](#), [TD Bank](#) and others. The housing will serve seniors with varying area median income (AMI) requirements, addressing the city's affordable housing crisis.

The initiative represents a significant public-private collaboration, providing quality housing for the city's vulnerable elderly population.
